

Privacy policy

Privacy

The operator of these pages takes the protection of your personal data very seriously - your personal data will be treated confidentially.

As a rule, the use of our website is possible without providing personal data. Insofar as personal data (e.g. name, address or e-mail addresses) is collected on our website, this is always done on a voluntary basis, as far as possible. Without your express consent, this data will not be actively passed on to third parties.

We would like to point out that data transmission over the Internet (e.g. when communicating via e-mail) may have security gaps. Complete protection of data against access by third parties is not possible.

What data is stored and how?

In essence, I process personal data in order to fulfil my contractual obligations towards my customers. The processing of the data is the prerequisite for me to be able to stay in contact with you, for example, flexibly via telephone/SMS/e-mail during the project assignments.

On my systems, I use e-mail programs as well as digital address books. The data is synchronized via cloud functionality on my computers and mobile phones.

Data is stored for easier identification and classification of the interlocutor as well as direct communication with you:

- Profile data (e.g. job title, company name, industry, contact options, photo)
- Messages (e.g. SMS, e-mails, appointments, participation in appointments, call dates)
- Personal notes (e.g. project name)

Of course, you have all rights under the European GDPR, e.g. right of objection, right of access, right of rectification, right of deletion, etc. Please do not hesitate to contact me about this or if you have any questions.

Mobile use / third-party services

Our mobile devices include third-party services features. By mobile contact and the storage of your phone numbers or contact details on our devices, your contact details will be linked to our accounts on these third-party services and may be disclosed to other users. Data is also transferred to these third-party services. We would like to point out that we, as the provider of our pages, do not receive any knowledge of the content of the transmitted data as well as their use by the respective third-party service. For more information, see the privacy policy of each third-party service:
